** MMMonVHF Trophy: "Best VHF DX Expedition" of the Year 2011 **

The team of MMMonVHF is very proud to publish the results of the
"Best VHF DX expedition 2011"

The winners:

SECTION MS

1st place and "Best VHF MS expedition 2011" : C37MS
2nd place: 7P8EME
3rd place: US8ZAL/P

SECTION EME

1st place and "Best VHF EME expedition 2011" : C56EME
2nd place: 7P8EME
3rd place: 8P9DL / 8P9MS / 8P9HP

On behalf of the whole VHF-community, the team MMMonVHF is
congratulating the members of both expeditions with their title
of honour. This is our way to thank them for their efforts and
great expeditions.

But our thanks and respects are also going to all who went on
expeditions and spended time and money in giving us new DXCC's
and squares and we hope that many more are encouraged to do so also!

As always we also give an extra T-shirt to one of the voters that was
selected random. The winner of this T-shirt is Eene, PA3CEG.

The complete results are published om the MMMonVHF webpage:

** DXCC: J5; square IK21DT; start 2012-03-23

Hello OM,
everything is ready for the J5 Guinea-Bissau DXpedition.
We finally received all the permits from the authorities in Bissau.
The calls J52EME for V-UHF and J52HF for HF are confirmed.
Two groups will operate simultaneously, with preference to the most
 difficult communications, ie EME.
After much work we can announce that we'll be active on:
144 MHz with 2x8 xpol, preamplifier gift of WA2ODO, amplifier ITB
Colibrï¿½ 1kw.
432 MHz with 2 homemade LFA antennas 18 elements, yet to be found
preamplifier, amplifier ITB Colibrï¿½ 600w.
50 MHz, homemade LFA antenna 5 elements, amplifier ACOM 1000, homebuild
preamp MGF1302.
In the beginning was our intention to just operate 2m EME, but we have
received many requests for both 70cm and 6m, so we hope to please everyone.
In the first few days we'll be active on 144 MHz EME and HF, with some
jump on 6m Supertropo and ES. Then we'll pass on 430 and 50 MHz. We'll
try to satisfy everyone.
Just on arriving a group will start to create an internet connection
for the hospital, so we can use it too.
Frequencies:
144,130, 432.900 and 50.200. We'll call always in the even period.
Thanks for the help that you'll can give to our humanitarian/ham-radio
expedition.
Renato I3EJ we'll keep you informed during the DXpedition on our site:
http://www.ari.verona.it/veronadxteam/en/index.htm
and email questions to: veronadxteam@ari.verona.it

See you soon from J5 !

** DXCC: 4U_ITU; square JN36BF; start 2012-03-23

After both C37MS and C56EME did win the trophy MMM expedition of the
year 2011 section MS and
EME, Chris and Rene where thinking to celebrate this by doing
something back for all those voters.

We will be QRV moonbounce 2 meter from the ITU building in Geneva as
4U1ITU.

4U1ITU counts as a separate entity for the DXCC award and has never
been activated in WSJT.

We will be there from March 23rd till March 25th 2012, so only 3 days!
Don't miss it.

Frequency:
We always TX and RX 144.134 MHz
We use 1 minute periods and we will TX always first.

Setup:
2 x 8 Xpol yagi
400 watt amplifier and a low NF preamp (WA2ODO)
If all ok we will have a small 6 meter and 70cm setup with us too.

We will be on N0UK for last minute freq change.

Welcome to website! http://www.emelogger.com/4u1itu

** DXCC: 5X; square: KJ60; start 2012-05-25

After some very successfull DXpeditions to the Gambia past year (C56EME with
361 inits on 144 MHz, a worldrecord, and 11 inits om 432 MHz), Bonaire (PJ4X)
and Curacao (PJ2/PE1L), Rene, PE1L will now try again to make Moonbounce QSO's
from Uganda on 144 MHz and 432 MHz. Uganda the pearl of Africa.
This time Eltje PA3CEE will join the party again. He was also joining in Kenya
(5Z4EME 2009), Mauritius (3B8EME 2010) and the Gambia (C56EME 2011).
Don't change a winning team!
We will be QRV moonbounce 2 meter as 5X1EME, a special moonbounce permit is
requested.
If all ok we will have a small 70cm setup with us.

>From May 25th (Eltjes birthday!) 5X1EME will be active
from Uganda on 144 MHz moonbounce. The locator will be KJ60gh, near Kampala on
the equator.

The plan is to leave May 21st and build up the station before the weekend. It's
just the two of us but we know what we are doing.
It's a hard job to get the license there. Callsign is still a bit insecure but
we have good faith in obtaining 5X1EME.
We want to be active at least during two whole weekends when there is
good activity in combination with good moon conditions.
Last operation presumably June 3rd.

Internet possibility is unsure but we try to send at least once a day a update
via MoonNet, MMMonVHF and our mailinglist.

If internet will be low, we will try (one way) communication through
Twitter: http://twitter.com/#!/PA3CEE and
http://twitter.com/AtleticoTeamExp in order to inform with short messages.

Frequency:

We always TX and RX 144.134 MHz
We use 1 minute periods and we will TX always first.

Setup:
2 x 8 Xpol yagi
400 watt amplifier and a low NF preamp (WA2ODO)

Welcome to Uganda moonbounce site! http://www.emelogger.com/uganda

This is our fourth DXpedition to Africa. Africa came into our blood. We have to
come back as often as possible. We can't resist....

Special Event Station GR100MGY will be activated between 10-15th April, 2012

The sinking of White Star Line's RMS Titanic on 15th April 1912 sent shock-waves
around the world and has touched our hearts ever since. To commemorate this
tragic event, special event station GR100MGY will be activated between 10-15th
April, 2012. Some fifteen operators will man two 400 watt transmitters on the
eight HF bands from 3.5 to 28 MHz, using directional antennas. Only CW will be
used except on the open days, 14-15th April, when SSB will help the public to
understand the operation. Activity on VHF is also planned. QSL information can
be found on QRZ.com. GR100MGY will be located at 0?37'18" West, 51?11'49" North,

2O12L will be the callsign of the London ham radio station
celebrating the Olympic Games and Paralympics. Based at Eltham Palace (WW Loc.
JO01AK), which is in the Borough of Greenwich, England (EU-005, WLOTA 1841), one
of the six 'host boroughs' for the Games, five stations will be active
simultaneously, three on HF and two on VHF. Operation will cover the period of
the Olympics and Paralympics, and the two weeks in between (27 July to 9
September, 2012). In total they plan to make at least 60,000 contacts during the
seven week period. Visitors may view an exhibition about radio communications
and electronics, and sit down at the radio and make contact with amateur radio
operators right around the world. They are also offering 'bite-sized' talks
giving an overview of radio and its importance in the modern world. All hams who
visit the Olympics, from anywhere around the world, are encouraged to visit
2O12L. QSL via G4WNF, direct or Bureau. Please check website often, for updates
as the project progresses at: www.2o12l.com/
